## TERMS OF SALE

- 1) A 10% buyers charge will be added to the hammer price of each lot purchased.
- 2) All bids are per lot as numbered in this catalog.
- 3) We reserve the right to withdraw any lot prior to sale.
- 4) All successful bidders shall be billed for postage, handling and insurance.
- 5) NASCA reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
- 6) A NASCA auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of NASCA's failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
- 8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
- 10) All bids must be in whole dollar amounts; this includes percentage increases.
- 11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
- 12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
- 13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
- 14) Title does not pass until payment in full is received. NASCA reserves the right to await clearance of any check before making delivery.
- 15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by NASCA shall be borne by the defendant. The signer of a NASCA bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as NASCA alone shall elect. The participant in a NASCA auction also assumes both corporate and personal liability for unpaid auction bills.
- 16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 17) NASCA may reopen the bidding on a lot under the following circumstances: 1) NASCA has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
- 18) In the event of any dispute, the decision of the auctioneer is final.

### GUARANTEES AND RIGHTS OF RECOVERY

- 19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. NASCA reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
- 21) All material in this catalog is guaranteed to be genuine unless otherwise described.
- 22) No lots may be returned by floor bidders except for non-authenticity.
- 23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or forty-five days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (45 days after the sale), notify NASCA of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 25) In the event of litigation the plaintiff shall pay NASCA's legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the prime rate at Morgan Guaranty Trust Company from the date of actual disbursement.
- 26) The same protections applicable here to NASCA apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 27) NASCA assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 28) All accounts are payable to NASCA in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No payments will be received by NASCA in the form of credit cards for auction sales, catalogs or other monies due to NASCA.
- 29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

- Choice Unc.** (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
- Unc.** (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
- Choice AU** (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
- AU** (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.

- VF** (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

- VG** (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.
- Good** (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
- Fair** - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
- Poor** - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
- Abt** (before a grade) - A shade below the grade it preceeds.
- Plus or +** (following a grade) - A shade better than the grade.
- VF-EF** (hyphen between grades) - The grade is about halfway between the two grades shown.

The Oil Creek Railroad was founded in 1860. In 1870 it was consolidated into the Oil Creek and Allegheny River Railroad along with the Warren and Franklin, Farmers, and Union and Titusville Railroad companies. 120 miles of road were included, running from Corry to Irvineton and Union City to Titusville. The principal traffic of the road consisted of coal and petroleum. Daniel Drew, 1797-1879, was one of the few men of his day who could truthfully say that he got the best of Cornelius Vanderbilt. Drew competed with the Commodore in the steamboat business, and as a member of the board of directors he helped defeat Vanderbilt in the "Erie War". Drew founded the Drew Theological Seminary in 1866. His later years were much less fruitful and he was forced to declare bankruptcy in 1876. Drew's autograph has always been elusive and this is the only certificate of its kind discovered in the Penn Central archives. Rare.

The second edition, expanded. In the latter half of the nineteenth century, the Baldwin Locomotive Works was the finest and foremost producer of steam engines in the country. The catalogue advertising its products to the railroads of the nation was a sumptuous affair, with tipped-in album photographs, and lavish production. A history of steam engines in general, and Baldwin engines in particular, precedes the catalogue. The works are now defunct and their sad ruins can be seen from the expressway approaching Philadelphia from the south. The illustrated Baldwin catalogues are rare.

581 **THE SOCIETY FOR ESTABLISHING USEFUL MANUFACTURES** 1792. Subscription agreement for 1 share. (Photo) (\$1500-Up)

The most ambitious commercial enterprise of its time. Chartered by New Jersey, November 22, 1791, to engage artisans for "a manufactory of Cotton." An exceedingly rare and important piece; we know of only four examples.

The Society was founded in Paterson, N.J. to put into practice Alexander Hamilton's views concerning financial and economic structure. The certificate is signed by **William Duer** who resigned as Assistant Secretary of the Treasury Department under his friend Hamilton in order to head the Society. Duer was an unfortunate and embarrassing choice who interrupted the growth of the corporation with excesses which landed him in debtor's prison. His difficulties and hopeless insolvency in 1793 precipitated the first financial panic in New York's history. **Nicholas Low**, an important merchant and banker, also signs, as well as **Elisha Boudinot**.

The company initiated the anthracite coal age in America, and its certificates are historically important for this reason. The shareholders were from the Lehigh Valley and Philadelphia. The stock was sold by public subscription, but never publicly traded. After 1818, the assets of the company were held by Josiah White and Ezra Hazzard, founders of the Lehigh Coal & Navigation Co., and by 1838, all the original shares had been repurchased by them on behalf of LC&N. Only 20 of these were found, thus it is very rare and desirable.

## EDISON LOTS

## 619 EDISON: BOOK - PHONOGRAPH AND GRAPHOPHONE CONTRACTS, VOLUME 1 &amp; 2. (2) (\$250-Up)

Covering the period roughly between 1878-1888, and containing printed copies of the contracts, these were the reference books of Sherbourne E. Eaton, Edison's attorney. Most likely they are unique in this form, although it is possible that there was another set bound similarly. They were among the possessions of John C. Rowe, the young attorney who assisted Eaton, and after Eaton's death became Edison's attorney, and the first volume is inscribed by Rowe.

No. 13 contains 17 illustrations including Notre Dame University, Columbia College, Missouri State University, Kansas City penitentiary, the New England Conservatory of Music and a number of insane asylums.

## 621C EDISON: EIGHT SCRAPBOOKS. (9) (\$750-Up)

The scrapbooks were compiled in the law offices of Chamberlain, Carter and Eaton, apparently, and include press clippings as well as various printed items from the Edison companies. These are showing signs of age, with covers loose, and so on, but extremely interesting and readable. They are contained in a tin box bearing the name "New Haven Three Wire Case Cos." complete with key. A splendid relic of earlier days.

## 625 COOKE, JAY: BROADSIDE. Jay Cooke &amp; Company broadside advertising the sale of the 7-30 Gold Loan of the Northern Pacific Railroad and Land Grant. There is a map on the verso. ★(\$60-Up)

## 626 NORTHERN PACIFIC RR 1870. \$100 bond, Cu. or. Boy, cattle, view of the vast Northwest, trees, snow-covered mountains in the distance. Signed by Jay Cooke and J. Edgar Thompson as trustees. Torn along the center fold. Rare. (Photo) (\$1,500-Up)

The Northern Pacific engaged in fierce competition with James J. Hill's Great Northern Railway. Hill developed his road slowly and carefully, while the Northern Pacific followed a strategy based on being the first to reach the west coast. The Northern Pacific paid quick dividends to investors, but as time went on Hill's Great Northern competed successfully. Hill, allied with J.P. Morgan, forced the Northern Pacific to consolidate. Today both roads are part of the Burlington Northern system.

Jay Cooke, 1821-1905, was a banker and railroad financier. During the Civil War Jay Cooke & Company marketed bonds for the U.S. government. Cooke became interested in financing railroads, concentrating on the northwest. His Northern Pacific Railroad failed in 1873, but Cooke's mining investments kept him from further financial embarrassment.

J. Edgar Thompson was one of the foremost civil engineers of his time and third president of the Pennsylvania Railroad.

This piece has never been offered at an auction before.

While a few of these have turned up, the piece and the vignette are rare.

George Brinton McClellan, 1826-1885, served in both the Mexican and Civil War. He commanded at Antietam in 1862. As a Democratic candidate for President in 1864 he was defeated by Lincoln.

Alfred Gwynne Vanderbilt, a noted sportsman, was the great grandson of the Commodore. He was lost when the Lusitania was torpedoed by a German U-boat in 1915. He became chief engineer and president of the Camden and Amboy Railroad and Transportation Company in 1830. Stevens was the inventor of the T rail, the hook-headed spike and a flat metal plate for covering the joints between rails. He imported a locomotive from England in 1831, thus initiating steam railroading in New Jersey.
